

FEATURES

- Floor mount
- Integrated room thermostat for constant warmth
- Overheat protection
- Fan motor with thermal protection
- Condensation free heating, no oxygen consumption
- Portable and easy to use
- Capillary Thermostat control type
- Plug is 415V BS4343/ IEC60309
- Power settings are 3
- Airflow of 411m³/ h
- Water resistant

5kW Fan Heater, Floor Mounted, 415 V BS4343/IEC60309

RS Stock No.: 174-6572

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

The RS PRO fan heater is a portable, small and a practical source of heat. It has a high-quality stainless steel heating element and adjustable thermostat control. Also, this fan provides overheat protection with time delay. The insulated handle is for safer carrying. It is enabled with a built-in high-temperature resistant silicone wire. The heater operates on a supply voltage of 380V-400V and outputs a maximum power of 5kW. It has a heating area of 48m².

General Specifications

Heat Type	Fan
Air Flow	411m ³ /h
Control Type	Thermostat
Power Settings	2
Heating Area	48m ²
Applications	Automobile workshop, Construction area, Assembly operation, Food and beverage, Storeroom and workshop, Greenhouse

Electrical Specifications

Input Power Rating	380-400v, 50hz
Maximum Output Power	5kW
Voltage Rating	415V ac
Plug Type	415 V BS4343/IEC60309

Mechanical Specifications

Mounting	Floor Mounted
