- Metal equipment housing with top, bottom and side panels
- Side members have slotted brackets for mounting PCBs or chassis plates
- 24 different sizes and configuration
- Flat packed for convenient shipping and storage
- Quick assembly in approximately 10 minutes, hardware provided

RS PRO Metal Enclosure, 279mm x 203mm x 131mm

RS Stock No.: 754-5995

RS PRO Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

The RS PRO Metal Enclosure measuring 279 x 203 x 131 mm, is made from high grade cold rolled steel. The multi-use electronic enclosure with 0.9 mm thickness has aluminium front and rear panels. The powder coated finish is preceded by a 5 stage iron phosphate pre-treatment. The rugged steel body of the enclosure provides easy access to the components being assembled inside while the aluminium front and rear panels are ideal for end user customization. The enclosure meets IEC297, ASTM D610-01, ASTM B117 (500 hours salt spray test) and RoHS standards.

General Specifications
