

318-A / BS 6004 Flexible Arctic Grade Multicore Cable

multicomp PRO

RoHS
Compliant

Application

Arctic grade PVC multicore cable manufactured to BS 6004 are designed to withstand severe external temperatures and will remain flexible at temperatures down to -40°C . Making them particularly suitable for outdoor applications and for use where flexibility is required at sub zero temperatures. At normal temperatures the cable is very flexible, offering some of the characteristics usually found in elastomeric cables.
