

## Features

- 2 x 2 m lengths of single cable fixed (antennae aerials)
- 4 Screws (to mount the unit to a suitable fixture)
- 4 Cable ties (to secure signal cable when coiled)
- Fits on hot and cold water pipes, horizontally, vertically or diagonal no plumbing required
- Prevents any further build up of hard scale

## RS PRO Electrolytic Scale Inhibitor, 3L/s

RS Stock No.: XXX-XXXX

RS PRO Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

The RS PRO electrolytic scale inhibitor maintains the flow rate up to 3 L/s. It is plugged into the main electrical 230 V supply to draw power to the main control unit where it is passed through a 12 V transformer and out to the aerial wires, wound around the pipework. This electronic scale inhibitor fits on hot and cold water pipes in horizontally, vertically or diagonal orientation without any plumbing. It is suitable for PVC, copper, lead and iron pipework.

## General Specifications

Scale Prevention Mechanism	Electrolytic
Maximum Flow Rate	3 L/s
Finish	Nickel Plated
Length	100 mm
Material	PP
