

BLF 200 - BASIC - heats up to 20kg

New

BETEX BLF 200 low frequency induction heaters 120/230V - 50/60Hz - **BASIC series**

- Heating can be done in time or temperature mode
- Smart electronics ensure optimal heating and efficient use of power
- Robuste design for working in industrial environments
- Controlled heating method
- Reduced energy consumption
- Including 5 yokes, 7, 10, 14, 20, 40 mm
- Temperature setting upto 150°C / 302°F
- Incl. 1 magnetic temperature probe
- Automatic demagnetization, better than 2A/cm
- Keyboard for easy operation
- Acoustic signal at the end of each heating cycle
- Temperature hold
- Time setting in minutes/seconds
- Incl. service kit and CE-manual
- 3 years warranty on the electronic unit
- Including packing material

Technical specifications BLF 200

Output kVA	1.5 - 3.0
Voltage / Current	120V / 13A
Voltage / Current	230V / 13A
Frequency Hz	50-60
Max. weight bearing kg	20
Max. weight other components kg	10
Max. temperature	150°C / 302°F
Max. OD Ø mm	240
Magnetic temperature probe(s)	1
Heating methods:	
- Time	yes
- Temperature	yes
- Temperature or time	no
- Temperature or speed	no
Automatic demagnetization	yes
Weight heater kg (excl yokes)	21
Dimensions mm	460 x 240 x 280
