

E7400 SERIES TYPE IA FIBERGLASS EXTENSION TRESTLE LADDER

The E7400 Extension Trestle Ladders have a 300 pound duty rating per side and are designed for one or two-person jobs. The slip-resistant Traction-Tred® extra wide steps are knee-braced and double riveted. A spring-loaded locking mechanism makes maneuvering the extension trestle easy. The nylon-coated guide sleeves assure minimum friction and wear and also increase the ease of operation. External rail shields and the EDGE® bracing system help protect the rails. Fiberglass rails are non-conductive for working near electricity.

FEATURES

- Center section extends for access above drop ceilings or to support stages
- Slip-resistant Traction-Tred® extra wide round rung steps are knee-braced and double riveted
- Extra heavy duty internal spreaders
- Nylon coated guide sleeves assure minimum friction and wear, and increase ease of operation
- Spring loaded locking mechanism holds center section securely in place
- Shoe pads riveted to the EDGE® structure
- Shoe with rubbertread and protective rail shields

- Aluminum external rail shield helps protect against abrasion damage
- EDGE® bracing system helps to decrease damage to rail
- Design for one or two-person jobs
- Maximum load per side, including person and materials, shall not exceed duty rating of ladder
