

FEATURES

- Specialized box end design allows work on multiple types of fasteners including 6-point, 12-point, spline, star, square, and most rounded out fasteners
- Universal ratcheting wrenches are no wider than a standard chrome wrench, allowing you to work in tight spaces where a socket can't fit
- Universal ratcheting wrenches are constructed of chrome vanadium steel for strength and durability
- Universal wrenches finished with an industrial matte finish that allows you to easily identify your Universal tools in your tool box or on your working bench
