RS Pro Diamond Impact Phillips Screw Bits (Box of 5)

RS Stock No: 125-0388
125-0389
125-0390

RS Pro Diamond Impact Phillips screw bits are specifically designed for use with conventional impact drivers. The diamond coating allows the screw bit to 'bite' into the screw head which reduces the risk of cam-out or slippage. Also features TiN CVD coating which provides perfect wear protection and is ideal for harder screwing applications. With a Torsion style round shank to withstand exceptional torque peak loads, these bits are very hard wearing and give a long service life. Supplied in a compact plastic box.

Specifications:

- ¼" Hexagon Shank
- 25mm long
- Impact
- Diamond & TiN CVD coating
- Longer torsion zone

Kit Contents:

- 5 x Diamond Impact Phillips Screw Bits
