

FEATURES

- The surface is manufactured from 50-micron clear polyester
- The modified acrylic adhesive is suitable for most surfaces
- Correct temperature readings in 2 to 3 minutes

RS PRO Temperature Label Indicator, 50°C to 100°C, 11 Levels

RS Stock No.: 906-4609

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

From RS PRO, comes a range of great value vertical temperature label indicators. This range of easy to read temperature indicators are designed to be self-adhesive and provide the current temperature with an accuracy of +/- 1°C. They are also ideal for ensuring that overheating is not taking place during preventative maintenance checks.

General Specifications

Number of Temperature Levels	11
Labels Per Product	10
Orientation	Vertical
Reversibility	Reversible
Accuracy	+/-1°C
Scale	°C
Active Material	Microencapsulated Single Colour Liquid Crystals
Shelf Life	12 months
Surface or carrier	Polyester
Adhesive Type	Modified Acrylic
Storage	Store in a cool, dry, dark location. Avoid exposure to UV light
Pressure sensitive	No
Applications	Food Industry , Pharmaceuticals, Medical products, Industrial equipment, Shipping and packaging for sensitive goods

Mechanical Specifications

Dimensions	18mm X 51mm
Label Length	51mm
Label Width	18mm

Operation Environment Specifications

Minimum Temperature Sensitivity	50°C
Maximum Temperature Sensitivity	100°C
Storage Temperature	below – 5 above 40°C

Approvals

Compliance/Certifications	RoHS Certificate of compliance
