

Features

- Multi Pass Tested to ISO 16889 Beta ratio 200
- Manufactured in accordance with all international standards
- Inorganic fibre element
- NBR filter
- Temperature range: -10 to +100°C

RS PRO Replacement Hydraulic Filter Element

RS Stock No.: 512-702

RS PRO Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

RS PRO Interchangeable Filter Elements

Filter elements are essential in ensuring cleanliness in your hydraulic systems. Filter elements can extend the life of your components and reduce the need for maintenance. Our filter elements are available in different diameters to meet your requirements and they can be interchangeable with leading brands of hydraulic filter elements.
