Product Description

Introducing the range of RS PRO Spring Toggle Fixings, a high-quality fastener designed for use in plasterboard, hollow block and other types of hollow based materials, especially in construction and building or DIY. Each fastener is made from steel with a zinc coating, making them much more cost-effective than their stainless-steel counterparts, while still offering a high level of protection against surface rust and oxidisation.

Applications:

- DIY
- Mounting heavy items onto walls
- Building work and construction
