RS PRO Retractable Key Chain

RS Stock No.: 310-2092

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

Securing your keys has never been easier, thanks to this retractable key chain from our RS PRO series. With its 600 mm-long chain, you can use keys at arm's length without having to detach them. The chain is made from stainless steel, which is a hardwearing material for heavy-duty use. It can bear up to 284 g, so you can carry several large keys or even some small tools. All of this is encased in a tough steel body that offers even greater protection in rough conditions. There are two fixing holes to securely attach it to a belt for easy access and a reliable hold.
