RS PRO Wall Clocks

RS Stock No.: 2486684

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This quality analogue wall clock is suitable for use in any internal location where good design is required together with accurate timekeeping.

Suitable at home, in the office or small industrial buildings, the clock will provide years of service. The powder coated coloured case will make a striking contrast to most backgrounds.

The clock operates using one x R6/AA size battery that is supplied and should last approximately 12 months.
