RS Stock number 584-895

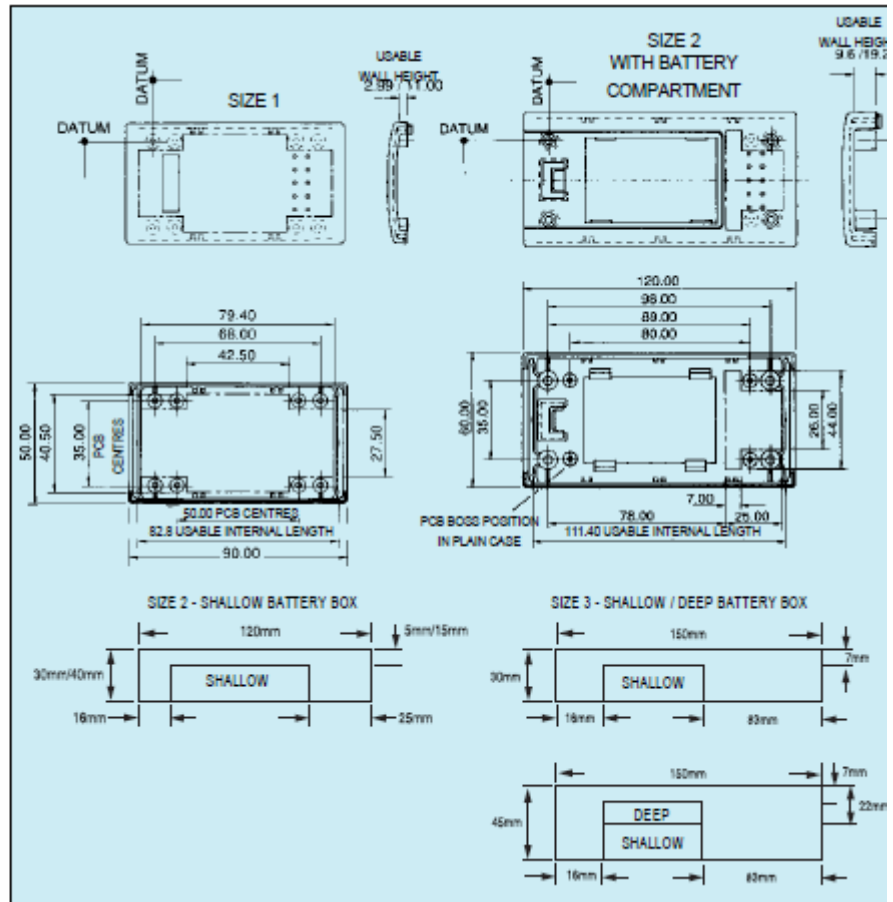

VERONEX HAND HELD

The Veronex hand held range have been designed for a variety of portable applications including data acquisition, field test and measurement.

The size 1 units, are supplied with the belt clip fitted as standard, but do not have a LCD cut out or recessed area for membranes. Unique to the two larger units are the top covers which feature a recessed membrane keypad area designed to accept a 74mm x 40mm (size 2) or 96mm x 60mm (size 3) membranes and an LCD cutout to accept meters and displays.

The size 2 units will accept a 40mm x 20mm LCD (viewing area 31 x 14mm) and size 3 will accept a 60 x 30mm LCD (viewing area 47 x 18mm).
