RS PRO 10 Tooth Pilot Sprocket

RS Stock No.: 146-5425

RS PRO Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

The RS PRO 10 Tooth Pilot Sprocket is a n 05B pilot socket for use with the British standard 05B chain size (5mm) and is usually used for light duty applications under normal stress levels. Pilot sprockets (or rough sock bore sprockets) are designed with a hub that sits on the centre of the shaft and provides a secure and stable method of power transmission to the chain.
