- Pozidriv drive
- A4 'Marine Grade' stainless steel
- Supplied in a polypropylene case

890 piece Stainless Steel Screw/Bolt Kit, No. 10, No. 6, No. 8

RS Stock No.: 535-2362

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

From the trusted RS PRO professional brand, this set of high-quality Pozidriv flat pan and countersunk head self-tapping screws are ideal for many applications. Self-tapping screws are split into two main categories, thread-forming and thread-cutting. The screws are similar in the job they do however they have two noticeable differences. Thread-forming screws have a flat base whereas thread-cutting screws have a sharp point. The difference between self-tapping and self-drilling fasteners is that self-tapping screws will tap a hole into a soft material, self-drilling screws can drill a hole into anything from metal to wood meaning no pilot hole is needed.

General Specifications

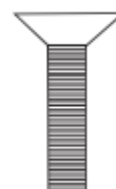

Number Of Pieces	890
Screw/Bolt Type	Self Tapping Screw
Head Shape	Pan and Flat
Drive Type	Pozidriv
Kit Contents	Pan cross-recess No. 10, Pan cross-recess No. 6, Pan cross-recess No. 8, CSK cross-recess No. 10, CSK cross-recess No. 6, CSK cross-recess No. 8
Applications	Carpentry, Construction, DIY applications, such as cabinets and panelling

Mechanical Specifications

Screw/Bolts Lengths	3/8in to 1in
Thread Size	No. 10, No. 6, No. 8
Material	Stainless Steel
Stainless Steel Type	A4 316
Finish	Plain
Screw/Bolt Length Longest	1in
Screw/Bolt Length Shortest	3/8in
Specification	DIN7981 & DIN7892 standards
