

JUMPY - single shockproof plastic bucket 30 L

APPLICATIONS

Bucket used for the professional cleaning of the floors in small environments and places.

FEATURES

- Made of high quality polypropylene copolymer: shock-proof, heavy duty and low-temperature resistant, light, non-toxic, completely recyclable
- Higher than the traditional buckets, it allows the operator to work without bending
- Down-press wringer: ideal for kentucky mops and Speedy mop system
- Back feet can be unassembled to allow the piling of the bucket, reducing storage and transport costs
- Drawing "caution wet floor" on the sides of the bucket

MATERIAL

Polypropylene copolymer
