RS Pro 600W Panel Heater, Ceiling Mounted, Wall Mounted

RS Stock No: **875-0277**

Product Details

RS Pro 600 W infrared panel heater converts 100% of the energy consumed into comfortable warmth, heating quickly and accurately without any plumbing, ongoing servicing or maintenance costs. It measures 600 x 900 mm and can be wall or ceiling mounted. The far infrared penetrates the air and heats people, objects and the fabric of the building much like sunlight or an open fire. Radiatively heated objects retain heat longer and re-radiate their warmth back into the room creating better all-round thermal comfort. IR heating also prevents the unpleasant dry breeze and dust disturbance of convection heating. It evolves less humidity and therefore a lower risk of mould formation and mildew.

Features and Benefits

- Available in a selection of sizes and heat outputs
- Wall or floor mountable
- Silent operation
- Heating element: carbon-nickel with nano silver and nano copper technology
- Front face: white powder coated metallic surface
- Rear face: aluminium sheet with profiles for mounting
- Cable: 3 m power cable (European plug type CEE 7/4 fitted)
- Five integrated temperature sensors provide safety from overheating
- Frame: white powder coated aluminium frame
- Voltage rating of 230 V, 50 Hz

Specifications:

| | |
|----------------------|-------------------------------|
| Depth | 22 mm |
| Dimensions | 900 x 600 x 22 mm |
| Frequency | 50 Hz |
| Heat Type | Infrared Reflector |
| Height | 900 mm |
| Maximum Output Power | 600 W |
| Mounting | Ceiling Mounted, Wall Mounted |
| Noise Level | Silent |
| Plug Type | Type C - Euro Plug |
| Width | 600 mm |
| Voltage Rating | 230 V |
