

# RFS-10 PORTABLE SALINITY REFRACTOMETER WITH ATC

## Features:

- Durable and built to last long
- Uses ambient light only which means battery or power source is not required.
- Heavy-duty and lightweight with its aluminium construction.
- Equipped with scale measurement which provides direct reading, Easy to focus and calibrate.
- Accurate testing results guaranteed
- Cushioned with soft & comfortable non-slip rubber
- Extremely easy-to-use and calibrate

## Specifications:

- Measuring Range:
  - Salinity: 0-100 ppt (0-10%)
  - Specific Gravity (SG): 1.000 to 1.070
  - Minimum Division: 1 ppt / 0.001 Specific Gravity
  - Accuracy:  $\pm 1$  ppt / 0.001 Specific Gravity
  - Reference Temperature: 20°C
  - ATC (Automatic Temperature Compensation) Compensation Range: 10°C ~ 30°C (50°F ~ 86°F)

## Package Included:

- ATC Refractometer
- Pipettes
- A Mini-screw driver
- Protective case
- Manual
- Clean cloth
- English User Manual
