

Mounting Electric bearing heaters

BETEX Cone Heater CHU

For heating bearings, enabling easy mounting by means of shrink fitting.

A correct mounting method extends bearing life. Electric heating is a safe alternative to traditional methods such as hammering, oil baths or even blow torches! Also suitable for heating gears, bushes, cogwheels, couplings and other round metal workpieces.

The affordable alternative!

If your budget is limited then the BETEX Cone Heater is an affordable alternative to other heating systems. It is easy to use and suitable for a variety of sizes. The aluminium body is light weight and ensures fast, even heating.

Advantages CHU:

- Easy-to-use, just plug in and switch on
- Light weight, easy to move around
- Reliable & flexible
- Safe & clean operation
