

FEATURES

- Shaft Is Equal To The Diameter
- Titanium Coating
- Cuts Faster And Lasts Longer
- Ideal For Use With Most Power Drills
- Moulded Abs Storage Case

RS PRO 25 piece Metal Twist Drill Bit Set, 1mm to 13mm

RS Stock No.: 213-512

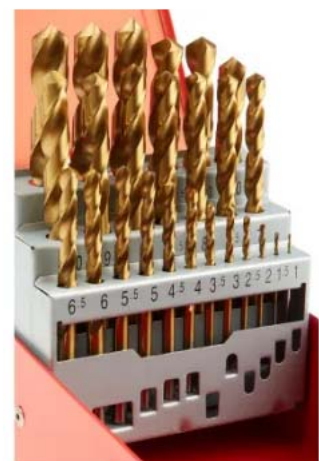

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

RS PRO offers this exceptional Drill Bit Set made from HSS coated in Titanium for high-performance, offering more resistance than regular HSS bits. It contains a great selection of the most commonly used diameters from 1mm to 13mm in 0.5mm increments. These High-Speed Steel (HSS) with the Titanium coating are constructed from a single piece of high-speed steel, thus reducing breaking and blunting under heat or stress. The coating gives the bits a very high surface hardness to help penetrate tough materials. Manufactured in accordance with DIN 338 for high precision tolerances and geometric accuracies.
