RS PRO Stainless Steel Articulated Hygienic Foot

The RS Pro Height Adjustable Hygienic Foot mounts have a solid AISI 304 stainless steel polished base and a NBR 90 shore glued anti-slip pad. This range have a 5° articulated half-threadless hygienic stem and a stainless steel thread-covering sleeve, making it easy to clean. It has a top sleeve, mounted with a bottom internal and a top external black silicon gasket, which covers the remaining threaded part and seals all the possible cavities where otherwise dirt and debris would infiltrate.

USDA Accepted

Typical Applications Include:

- Dairy and Meat Processing
- Hygienic Environments
- Food processing
