

Product details:

Holds objects securely at the desired angle.

The Mini Vice is made from an aluminium alloy, combining strength with lightness, making it ideal for use with portable workbenches, the kitchen table or wherever a strong temporary fixing is required. It can be attached to benches up to 20mm in thickness. As any Model maker or DIY enthusiast will know, it is essential to have a job held securely and in the right position, especially when working on precise items. By securing items whilst working on them you can ensure better accuracy and minimise mistakes. This Collection includes a comprehensive range of Clamping & Work holding tools to cater for all model making, craft or smaller DIY applications.

Specifications
