

FEATURES

- Enclosures for housing electronic systems and components
- Lid centre recessed for mounting membrane keypads
- Good chemical resistance
- IP67 rating
- Chassis plates and mounting brackets available separately

RS PRO, Unslotted Din Rail, 225mm x 35mm x 7.5mm

RS Stock No.: 188-2207

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

Introducing the RS PRO top hat DIN rail, designed to be used for mounting a variety of electrical and industrial equipment. The TS35 rail offers a unique fixing pod arrangement that allows three separate mounting options, including ready moulded guides for quick installation of PCBs. Additionally, the rail has been manufactured from steel with good chemical resistance and offers an IP67 rating, which means it is suitable for use even in extreme environments without compromising on the quality and performance of the product. This RS PRO DIN rail offers a secure attachment for enclosures and is versatile enough to use in a wide range of applications.

General Specifications

Compatibility	Top Hat
DIN Rail Type	TS35
Applications	DIN rail terminal blocks, Automation and control devices, Power supplies, Robotics, Plug-in relays, Panel meters, I/O devices

Mechanical Specifications

Material	Steel
Length	225mm
Width	35mm
Height	7.5mm

Protection Category

IP Rating	IP67
