

FEATURES

- Titanium Coating
- Heat Treated
- 135° Split Point
- Low Breakages
- Cuts Faster And Lasts Longer

RS PRO 19 piece Metal Twist Drill Bit Set, 1mm to 10mm

RS Stock No.: 507-1704

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

RS PRO offers this exceptional Drill Bit Set made from HSS with a Titanium coating for high-performance, offering more resistance than high carbon steel bits. It contains a great selection of the most commonly used diameters from 1mm to 10mm in 0.5mm increments. These High-Speed Steel (HSS) are constructed from a single piece of high-speed steel, thus reducing breaking and blunting under heat or stress. The Titanium coating reduces friction on the material allowing the drill bit to last up to 3 times longer when compared to standard HSS bits. Manufactured in accordance with DIN 338 for high precision tolerances and geometric accuracies.

General Specifications

Set Type	Jobber Drill Set
Minimum Size	1mm
Maximum Size	10mm
Drilling Application	Metal
Material	HSS
Number of Pieces	19
Set Contents	HSS Drill Bits
Point Angle	135degrees
