

Features

- 100mm diameter
- Rubber tyre
- 10k Ω max resistance
- Plain sleeve bearing is 6.0mm id

RS PRO Rubber Tyred Wheel, 60kg

RS Stock No.: 448-9946

RS PRO Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

A tough and durable anti-static wheel designed to prevent electro-static build up during transportation of items protecting electronic equipment and enabling the use of trolleys in sensitive areas. Fitted with a rubber tyre the anti-static wheel is robust enough to be use on a variety of surfaces both inside and out but soft enough not to damage walls and corridors during accidental impact.

General Specifications

Hub Bearing Type	Plain Bore
Hub Material	Steel
Load Capacity	60 kg
Tyre Material	Rubber
Tyre Type	Solid
Features	Anti-Static

Mechanical Specifications

Bore Diameter	8.3mm
Bore Length	28.5mm
Wheel Diameter	100mm
Wheel Width	22mm
