

## FEATURES

- Re-usable Signage and Identification
- White Card to write upon or add label
- Protective Clear PVC Cover
- Multiple poles on back face
- 100mm lengths
- Up to 44g/cm<sup>2</sup> pull force rating

## RS PRO Label Holders C Profile

RS Stock No.: 2655638, 2655639

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

- *Our Labelling Holders range is great for creating Temporary or Permanent Signage, Labels or Identification for use on ferrous (mild steel) racking, cabinets, doors, shelving or any other magnetically receptive surface.*
- *The Labelling Holders exist as packs of 100mm long strips.*
- *The Labelling Holder has three parts. The C-shaped magnetic extrusion is multiple poled magnetic at the rear. A White Card fits within the profile slot and this can be written upon or labels could be added to it as necessary to display the Sign or Information. Then a Clear Plastic Cover (PVC) fits over the White Card within the profile to protect the White Card from dirt to complete the Magnetic Labelling Holder.*
- *Magnetic Performance is rated at 44g/cm<sup>2</sup> (0.625lb/in<sup>2</sup>) but this can vary with material it is put against (quality of magnetic permeability of the mild steel, thickness of any paint layer, curvature of steel, air gaps, etc). Above 60 degrees C the magnetic pattern will soften and weaken; below -20 degrees C the magnetic material risks starting to demagnetise.*
- *The Labelling Holder can be used to create Magnetic Signage and other Magnetic Identification Labelling for use in Warehouse racking, metal filing cabinets and shelving, fridge doors or any other magnetically receptive ferrous (e.g. mild steel) surface. The Labelling Holders can be re-used, moved and repositioned as necessary.*

## General Specifications

<b>Magnet material type</b>	Isotropic Strontium Ferrite in a binder
<b>Magnetic Application</b>	Magnetic Labelling Holders
<b>Temperature Range</b>	-40°C to +60°C (-40°F to +140°F)
<b>Backing material</b>	None - plain
<b>Card type</b>	White card
<b>PVC Layer</b>	Clear PVC  V
<b>Width</b>	Varies – see Similar Products list below
<b>Length</b>	100mm
<b>Thickness</b>	~2.9mm
<b>Magnetic Poles Layout</b>	Multiple across width
<b>Specific Magnetic Polarity Type</b>	N/A
<b>Magnetic Pull Force rating</b>	up to 44g/cm <sup>2</sup>
<b>Release liner</b>	Plasticized material
