RS PRO Matte Black Plastic Concealed Fixings Drawer Handle, 119.5mm

RS Stock No.: 267-0724

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

These drawer handles from the RS PRO range are made from black plastic and are most frequently used on cupboard and cabinet doors. They have an easy grip for comfortable use.

The handles are U-shaped and constructed from fibreglass-reinforced nylon. Thanks to their matte black finish, they look sleek as well as being practical and sturdy. They're also corrosion-resistant, so are suitable for use in a range of industrial and domestic environments such as laboratories, factories and kitchens. Screws are concealed by the push-in caps that accompany them, while threaded inserts ensure they fix flush to doors.
