

Datasheet

6 Gang Distribution Unit

RS Stock number: 374-143

Description:

BS1363 Surge & RFI protected range is an ideal solution for home, office and industrial use. The ruggedized ABS plastic or Aluminium cases ensure a high impact resistance and long working life. Unit is supplied with a detachable IEC lead for ease of cable routing unless otherwise requested. The internal surge suppressors are tested against 'worst case' conditions, as defined in International Standards IEEE C62.41-1991 Cat B3 and comply with the recommendations of BS6651:1999 Annex C.

Specification:

Voltage Rating (Nominal): 230V rms
Maximum Current Rating: 10A
Power Consumption: Negligible
Lead Length: 2m
Surge Handling (8/20us) [Per Element]: 19.5kA [6.5kA]
Average Attenuation, Symmetric 1-30MHz (dB): -50
Voltage Protection Level (Up) 8/20us: 900V@3kA 8/20us
Response Time: <10ns
BS6651:1999 Annex C Location Category: A & B

Standard Features:

- Red status indicator to show mains power/fuse OK.
- IEC C14 Inlet connector on unit & detachable 2m lead.

Options:

- 2, 4, 6 or 8 way.
- Choice of Fire retardant ABS or Aluminium case.
- Choice of standard BS 1363 or RCD plug.
- Various additional Features.
