Datasheet
Stock No. 124-4132
RS PRO LCD Smart Soldering Station 60W

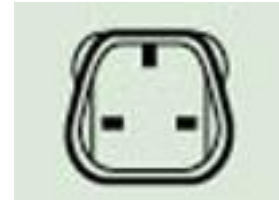

Specifications:

Model Number	124-4132
Plug type	B and C
Primary Application Category	Soldering
Input Voltage	220V~240V
Output Power	60W
Maximum Operating Temperature	480 °C
Minimum Operating Temperature	200 °C
Number of Outputs	2 (Iron and USB output)
Display Type	LCD

Nov/2016

ESD Safe	$10^6 \sim 10^{10}$
Height	106mm
Width	150mm
Depth	180mm
Weight	1.75kg

EU B & C type plug

Features:

Temperature reading can be changed to Fahrenheit or Centigrade

Temperature calibration function

Auto sleep and wake, system lock, and tip calibration functions

Large screen with backlight

LCD brightness and contrast are adjustable

Designed with functional scroll temperature control dial for easy setting

Comes with high end alumina ceramic heating element for fast heat recovery

With inbuilt data storage memory, store and recall 3 frequently used temperatures

USB 5V/1A power output

Built-in DC 5V/1A USB port for power supply

Separate iron stand

Complies with CE & ESD standards. RoHS Compliant.
