RS Pro Test Lead Cable

5x 1.2mtr Lengths, 1mm² Double Insulated Silicone.

Stock No: 2070881 - Black

Stock No: 2070882 - Red

Features and Benefits

- Very high quality double insulated silicone cable, with the inner skin being of a contrasting colour which acts as a wear/damage indicator.
- The silicone insulation is very good in high temperatures, even withstanding contact with a soldering iron, and can be draped over a hot manifold without sustaining damage. Idea for the automotive industry.
- The conductor is made up of over 250 strands of very fine copper which gives the cable its great flexibility. The cable has a 3.55mm OD.

Specification

Voltage:

1000V

Current Rating:

20 Amp

Compatible with the following RS Pro products.

465-621 (Red) 465-615 (Black) Right Angled Plugs. 454-277 (Red) 454-283 (Black) Straight Fixed Shrouded Plugs.
