RS Stock No.:  
751281,8938631,8938635,751297,8938644

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

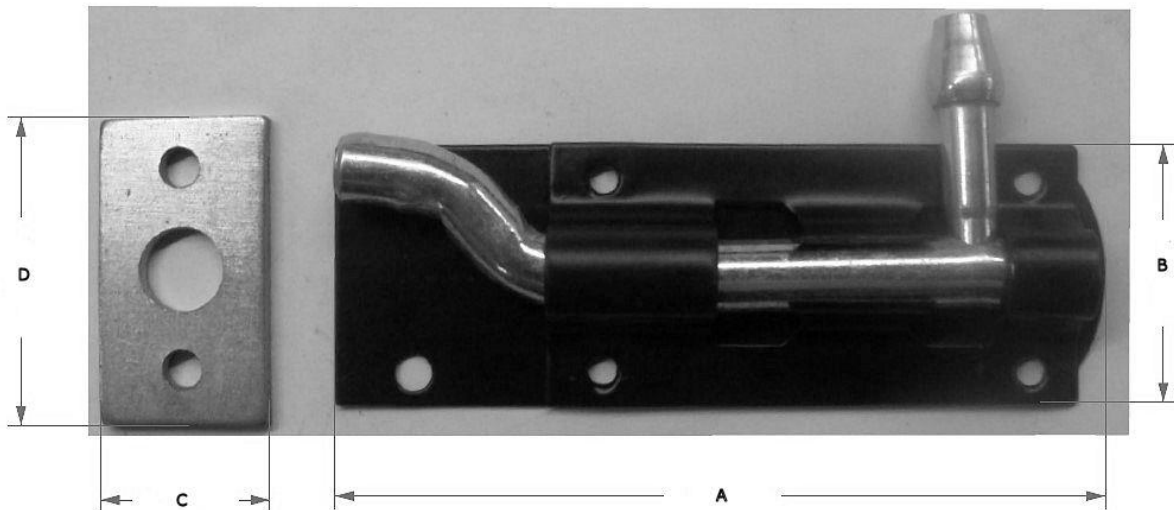

## Family Name

### Product Description

Necked tower bolts have a cranked sliding bolt and are often used on doors with a recessed frame, or double doors (garages, sheds, etc.). They come with a flat plate. Tower bolts can be fitted horizontally or vertically (up or down).
