TECHNICAL DATA SHEET

APLUS SAFETY SHOE

MODEL: A801

Introduction

A801 is optimized for usage for safety purpose in various sectors where a penetration resistance shoe is required and where users need protection around their ankles. As per requirements, it will protect the wearer from an impact of up to 200 Joules and a crushing force of up to 15kN in the toe area. Designed with the wearer in mind - its comfortable design, thick in-soles, superb anti-slip performance & easy lace up feature makes it the preferred choice.

Characteristics

- Genuine leather
- Easy lace up feature
- Anti-impact steel toe cap
- Stylish & comfortable
- Lightweight
- Excellent anti-slip performance
- Provides impact cushioning for the whole foot
- Antistatic
- Oils and acids/alkalis resistant

Certification:

- 1) EN ISO 20345:2011: Personal protective equipment --Safety footwear
- 2) Singapore Standard SS 513
