RS PRO Lubricant 50g Graphite

RS Stock No.:703-1086

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

Sometimes a multi-purpose oil is simply not enough due to many reasons. A specialist's line of dedicated products, designed to a specific need seems to have a more significant advantage to support your needs. The discovery of smooth cleaning Graphite versus Oil is well established, which gives the powder Graphite additional advantage. We are proudly introducing our own branded RS PRO Graphite Dry Powder Lubricant to provide grease-free and odourless for substantial application support. The Graphite will not only help you to loosen the lock but also protect the surface from extensive dust and dirt, so you can enjoy the peace of mind for many years to come.
