

One LED block for all colors! Simplify design and lower inventory cost

Harmony XB4/XB5

Simplified design

A unique and universal white LED block replaces 6 individually-colored blocks of the Harmony XB4/XB5 offering simplifying product placement during design.

Lower inventory

New white universal LED block design allows partners to simplify their LED block inventory by reducing from 6 references to 1 – up to 79% reduction in LED Block and body references.

Enhanced color saturation

Improved color intensity and reduction of spot effects creates better functional visualization when the product is on or off.

New design moves from 6 colored LED blocks to one universal white LED block with 2 side LEDs instead of 1.

New saturated colored plastic used on all heads except white and yellow.

Identify it quickly!

On catalogue

On packaging

On products

Family	No of references	Impact on range
Light blocks with integral LED	From 109 to 25	-77%
Light bodies (with or without contact blocks)	From 199 to 40	-80%
Complete units	321	No change
Heads only	559	No change
Accessories	8	No change
