RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

Cage nuts consist of a square nut, enclosed in a spring steel cage, wrapped around the nut. There are two spring-steel wings – one on either side of the cage, that when compressed, allow the cage to be inserted into square holes, and upon release, spring back to lock into position, holding the nut in position. Cage nuts provide a simple but effective captive nut solution. This allows the nut to be held in place so that the screw can be engaged later in the assembly process. Cage nuts only need access from one side. The square nut floats inside the cage body, allowing for the misalignment of panels, during assembly.

General Specifications

RS Stock No.	Finish	Dia	A (mm)	C (mm)	H (mm)	P
523109	Bright zinc plated	M5	13.2	8.7	9.5	0.7-1.6
523115	Bright zinc plated	M5	13.2	9.5	9.5	1.7-2.7
523121	Bright zinc plated	M6	13.2	8.3	9.5	0.7-1.6
523137	Bright zinc plated	M6	13.2	9.3	9.5	1.7-2.7
