RS Stock No.: 290-9606

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

From the trusted RS PRO brand, this set of high-quality countersunk socket screws have a hexagonal socket drive and a BZP finish. Socket screws are tightened using an Allan or Hex key, making them ideal for use in applications where externally wrenched fasteners are not practical because of a lack of space. Countersunk head screws are popular in precision-focussed applications as the countersunk head allows for a flush fixture and the aesthetic of the BZP finish provides a sleek final appearance.

General Specifications

Number Of Pieces	450
Screw/Bolt Type	Socket Screw
Head Shape	Countersunk
