Introducing the **PW-10L**

An economical direct pipe-in, hot water boiler that is able to serve an office of about 50 people or more. A fully micro computerized quick electric boiler that makes uses of sensors instead of the traditional float.

Our 4-stage filtration system consists of the following:

- 1st Stage Sediment Filter
- 2nd Stage Pre-Carbon Filter
- 3rd Stage UF Membrane Filter
- 4th Stage Silver Carbon Filter

Product Features:

- LED Panel with temperature indicator
- Stainless Steel Tank

Installation and transport charges are waived*!

***Terms and conditions apply**
