RS Pro Digital & Programmable HVAC Thermostat, 24 h, 7 days with LCD Display with Backlight

RS Stock No: **823-4923**

Product Details

RS Pro digital and programmable HVAC thermostat comes with LCD display for effective measurements. This wireless programmable thermostat kit can be used to control individual areas, designed to be used with portable heating appliances. This thermostat separates its functions into two units, the receiver plug socket and control centre, which serves as a user interface and temperature sensing/controller. You can put the control centre in your required room and it can read and control the temperature of the living area while the receiver is situated besides the heating appliance. This device can be programmed for 24 hours and 7 days.

Features and Benefits

- Link with the receiver via 868 MHz RF
- Comfort and economy temperature setting
- 8 sets of default programs and 8 sets of editable programs
- Anti-freezing protection
- Low battery indication
- Power source control centre 2 AAA alkaline batteries (Not Included)
- Receiver of 240 V ac±13 A 50/60 Hz
- Relay contact of 240 V ac/13 A
- Room temperature setting range of +5 to 35°C
- Accuracy: 0.5°C ~ 1.0°C

Specifications:

Additional Features	LCD Display with Backlight
Contact Rating	13 A
Contact Voltage	240 V ac
Maximum Temperature	+35°C
Minimum Temperature	+5°C
Program Duration	24 h, 7 Days
Supply Voltage	240 V ac
Temperature Range	+5 to +35°C
