ESD Ergonomic Micro-Shear range

Micro-Shear® flush cutters utilize an anti-shock shearing cut, with the by-pass cutting edges slicing cleanly through the metal. Shear cutting greatly reduces mechanical shock delivered to the component and requires only about half the effort to cut a wire as compared to conventional compression type wire cutters.

- » 2-Component ESD-safe user-friendly Ergonomic handles with a soft comfortable gripping surface
- » High precision screw and post joints reduce internal friction and our light touch return springs provide lively action with low operating pressure. The grips traverse the width of the hand, helping to eliminate pressure points while reducing pressure at any given point: grip spread in the closed position is under 2", a comfortable dimension for most hand sizes.
- » Non-glaring bright finishes or glare eliminating black finishes giving you the option of selecting the appropriate finish for the work being performed.

CUTTING CAPABILITIES

8472949	 Micro-Shear Flush Cutter ESD safe	18 AWG SOFT WIRE 1.02 mm
8472958	 Angled Micro-Shear Flush Cutter ESD safe	20 AWG SOFT WIRE 0.8 mm
8472967	 Mini-Shear Flush Cutter ESD safe	20 AWG SOFT WIRE 0.8 mm
8472942	 Oval Head Micro-Shear Flush Cutter ESD safe	12 AWG SOFT WIRE 2.0 mm
8472961	 Kevlar Fiber Shear ESD safe	12 AWG SOFT WIRE 2.0 mm
8472945	 Tapered Head Micro-Shear Flush Cutter ESD safe	14 AWG SOFT WIRE 1.6 mm
8472951	 Maxi-Shear Flush Cutter ESD safe	12 AWG SOFT WIRE 2.0 mm
8472955	 Music Wire Shear ESD safe	12 AWG HARD WIRE 2.0 mm
8472964	 Micro-Shear Flush Cutter ESD safe	16 AWG SOFT WIRE 1.29 mm
