

Plastic Bollard Covers: Security Post Sleeves

Protect steel pipe bollards from weathering and corrosion—while improving visibility and appearance

Plastic bollard covers (also referred to as “sleeves” or “bumper post covers”) provide cost-effective protection for steel pipe bollards. Plastic bollard covers keep security posts in their best condition, extending their service life and replacing the need for regular painting. Plastic bollard covers are available in a range of colors and styles to ensure the best visibility and design for existing buildings and landscapes
