Rack Case, 3U

RS Stock number 0179049

Features

19" rack cases are designed to offer a simple solution to many 19" mounting applications, notably for those involving audio & radio equipment. The design allows numerous combinations to be assembled according to the application and hence offers total flexibility for the design engineer, using common piece parts. It also allows the case to be presented in a number of attractive finishes for individual product tailoring

conforms to IEC 297-1, DIN 41494

Conforms to IEC 297-1, DIN 41494

Simple design for total access

Three depth variations

Three height variations

Numerous configurations for total flexibility

Slide mounting facility
