## RS PRO 9 Tilt Drawer Unit, PP, 77mm x 600mm x 51mm

RS Stock No.: 519-289

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This range of versatile drawer storage units from RS PRO are an ideal storage solution for use in a wide range of applications, available in 6 different sizes that are 600 mm wide. The robust design allows them to be self-stacked or mounted to wall frames, saving valuable floor space in the work environment. This range of tilt drawer units are perfect for storing and organising small to medium sized parts, with clear windows for visibility, accessibility and flexibility in a range of environments. The unit features a polypropylene construction with tilt drawers manufactured from polyester resin and polypropylene offering excellent durability and corrosion resistance. The drawers also open to a 45° angle ensuring items can be easily accessed, with the option to be completely removed if required. The RS PRO range of drawer units with tilting drawers offer a versatile storage solution that can be used in a wide variety of environments
