- Suitable for a wide range of applications

RS PRO Panel Screw Kit for Equipment Mounting

RS Stock No.:606-844

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO C profile slotted DIN rail kit comes complete with 4x1m length support rails, 1 pack of 25 caged nuts (M6 N-type) and 1 panel screw kit containing 25 steel pan head screws, M6x12 mm and washers). This handy kit ensures you have everything you need for safe and easy installation of equipment mounting in enclosures or for fixing to a flat surface. The kit can be built into a frame by using vertical ([606-866](#)) and horizontal ([606-850](#)) 90° angle brackets, available separately. Commonly used as a vertical support rail for horizontally mounted DIN rail, it fits on to the corner studs in enclosures. This kit is also manufactured from 1.5 mm cold rolled steel, zinc plated and passivated offering excellent durability and corrosion resistance.
