RS PRO 100x200mm Fire Extinguisher Sign – Self Adhesive

RS Stock No.: 763-1982

RS PRO is the own brand of RS. The RS PRO Seal of Approval is your assurance of professional quality, a guarantee that every part is rigorously tested, inspected, and audited against demanding standards. Making RS PRO the Smart Choice for our customers.

Product Description

Enhance the fire safety systems in your building with this fire safety sign from RS PRO. The red sign carries the graphic of a fire extinguisher to help indicate fire equipment in case of an emergency.

This sign is compliant with European Norm International Standards Organisation (EN ISO) 7010 safety norms for graphical symbols in registered safety signs that are recognised globally.

It's made from highly wear-resistant and strong polyvinyl chloride (PVC) so you can be confident of long service life. A self-adhesive backing ensures it's quick and simple to stick onto concrete and other materials.

The unit can also be mounted onto hangings to make bi-directional signs so that the location of safety equipment is clearly visible to both sides of foot traffic in common corridors.

The sign is of standard size as per regulations and is a bright red colour to make it clearly visible at all times. The unit is part of the trusted RS PRO series, known for quality and durability. It complies with RoHS (Restriction of Hazardous Substances) standards so it makes only minimal use of any environmentally harmful substances.

General Specifications
