

FEATURES

- Accuracy of ± 0.001 mm
- LR44 battery type
- Digital display type
- Both imperial and metric
- Stainless-steel material
- Maximum measurement of 200 mm
- Maximum operating temperature of $+40^{\circ}\text{C}$
- Minimum operating temperature of $+5^{\circ}\text{C}$
- Metric–imperial conversion
- Battery power source
- Resolution of 0.01 mm

RS PRO 200mm Imperial & Metric Depth Gauge, Stainless Steel

RS Stock No.: 180-9461

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This depth gauge from RS PRO can be used to measure the depths of spaces up to 200 mm deep. It's highly accurate to within ± 0.001 mm. As it's made from tough, corrosion-resistant hardened stainless steel, this gauge is long-lasting, even when used for heavy-duty applications.

The gauge is powered by a LR44/1.5 V alkaline battery. It's fitted with a knurled locking screw that makes it easy to fix your measurements. Its digital display gives both metric and imperial readings.

A gauge of this kind is an invaluable tool for workshops or machine shops.

General Specifications

Maximum Measurement	200mm/8"
Accuracy	± 0.001 mm
Resolution	0.01 mm/0.0005"
Imperial or Metric	Both
Material	Stainless Steel
