

Datasheet

RS Pro **Bright Zinc Plated Steel Retaining Clip,** **3/8in diameter**

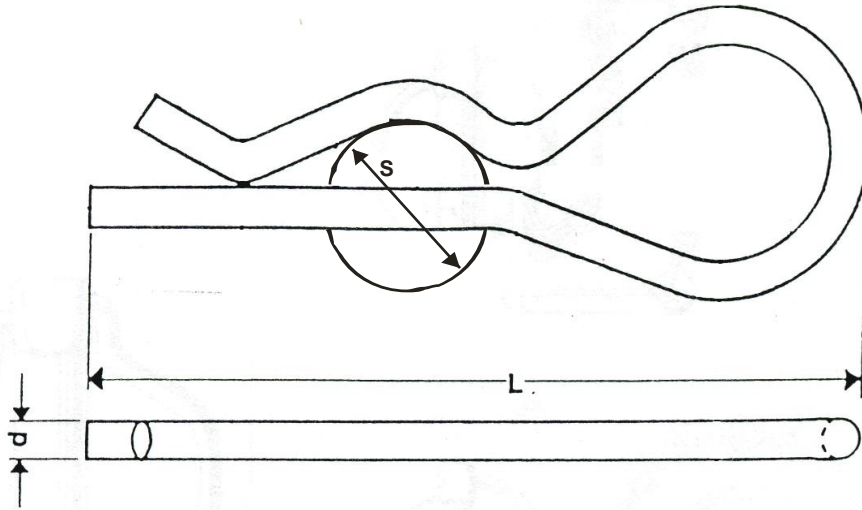

RS Stock No: **839-296**

Product description

Retaining Pins are manufactured from Hardened and Tempered Spring Steel and Bright Zinc Plated for corrosion resistance. The size designation revolves around the dimensions of the mother component, most commonly a Clevis Pin of either a headed or un-headed design.

Although the nominal length of the Retaining Pin is tabulated below it is the shaft size and wire diameter that most commonly determines which pin to utilise.

Part Number	Size Designation and Wire Size (d)	Recommended Shaft Size (S)	Nominal Length (L)
839-268	3/16" x 1mm	4mm to 5mm	18mm
839-274	1/4" x 1.2mm	5mm to 7mm	21mm
839-280	5/16" x 1.6mm	7mm to 9mm	28mm
839-296	3/8" x 1.8mm	9mm to 11mm	33mm
