LOBI S1P LOW TLS S1 PS

LOBIS1PLT

Wide-fitting trainer like safety shoe

Light like space, strong like a rock. Our lightweight LOBI S1P safety shoes feature ESD, a composite toe cap and textile puncture-resistant midsole, making them completely metal free. They have a slip-resistant rubber outsole that also resists oil, fuel, chemicals, and extreme temperatures. LOBI S1P has a wide fitting and features our TLS closure.

Upper	Synthetic
Lining	Mesh
Footbed	SJ Memory foam footbed
Midsole	Anti-puncture Textile
Outsole	Phylon/Rubber (NBR)
Toecap	Composite
Category	S1 PS / SR, ESD, FO, HRO
Size range	EU 35-48 / UK 3.0-13.0 / US 3.0-13.5 JPN 21.5-31.5 / KOR 230-315
Sample weight	0.499 kg
Norms	ASTM F2413:2018 EN ISO 20345:2022

TLS (Twist Lock System)

Safety Jogger's innovative TLS closure allows you to quickly tighten and loosen your safety footwear with one hand and under any conditions, even when you are wearing safety gloves. TLS ensures a fast, safe and easy precision fit that offers enhanced comfort and enables you to perform at your best.

Rubber outsole

Rubber outsoles provide versatile functions that make them suitable for many areas of application: excellent cut resistance, heat and cold resistance, high flexibility at cold temperatures, resistance against oil, fuel and many chemicals.

Composite toecap

Metalfree and lightweight, no thermal or electrical conductivity

Metal free

Metal free safety shoes are in general lighter than regular safety shoes. They are also very beneficial for professionals who have to pass through metal detectors several times a day.

Slip resistance (SR)

Replaces the previously used term of SRA+SRB=SRC. SR means the slip test has been executed on tiles contaminated with soap and with oil.

Heel energy absorption

Heel energy absorption reduces the impact of jumps or running on the body of the wearer.
