2 of 2 people found the following review helpful. Stay safe online!By Monika WernerNowadays it really is a bit scary that every step we take online can be observed and recorded, so Logan Styles book on how to hide your activity is a must read, if you want to keep some sort of anonymity in your life and stay under the radar. I also really enjoyed his explanation of bit coins. I've heard about it before, but never really understood the concept, but now I do, thanks to 'Tor and the Dark Net'0 of 0 people found the following review helpful. This book offers you a great way to hide your privacy while you surf the ...By JessicaTor is designed to protect private user data, as well as the freedom and opportunity to conduct confidential communications holding their Internet activity beyond the possibility of being tracked. This book offers you a great way to hide your privacy while you surf the Internet. A very useful book!0 of 0 people found the following review helpful. An interesting book with good detailsBy Aalize*Good book if you are new to using the Internet and curious about how do I not share everything that I do online.If you have experience with anonymization, TOR, Tails, VPN, I suggest going something more advanced.Overall nicely written introduction to this topic!

Discover the Secret to Being a SecretOnline Imagine if you could remain hidden from prying eyes on the internet. If you could leave zero traces or clues to your online whereabouts. Just picture being able to evade Big Brother watchdogs that hawkishly observe the internet, invasively prying on all your personal affairs. You'd be able to vanish without a trace, leaving authorities and overseers
