Situation & Demographics

21% population growth between 2011 & 2021. Forecast to increase 4.2% by 2027

20% of the population are aged between 20 & 34

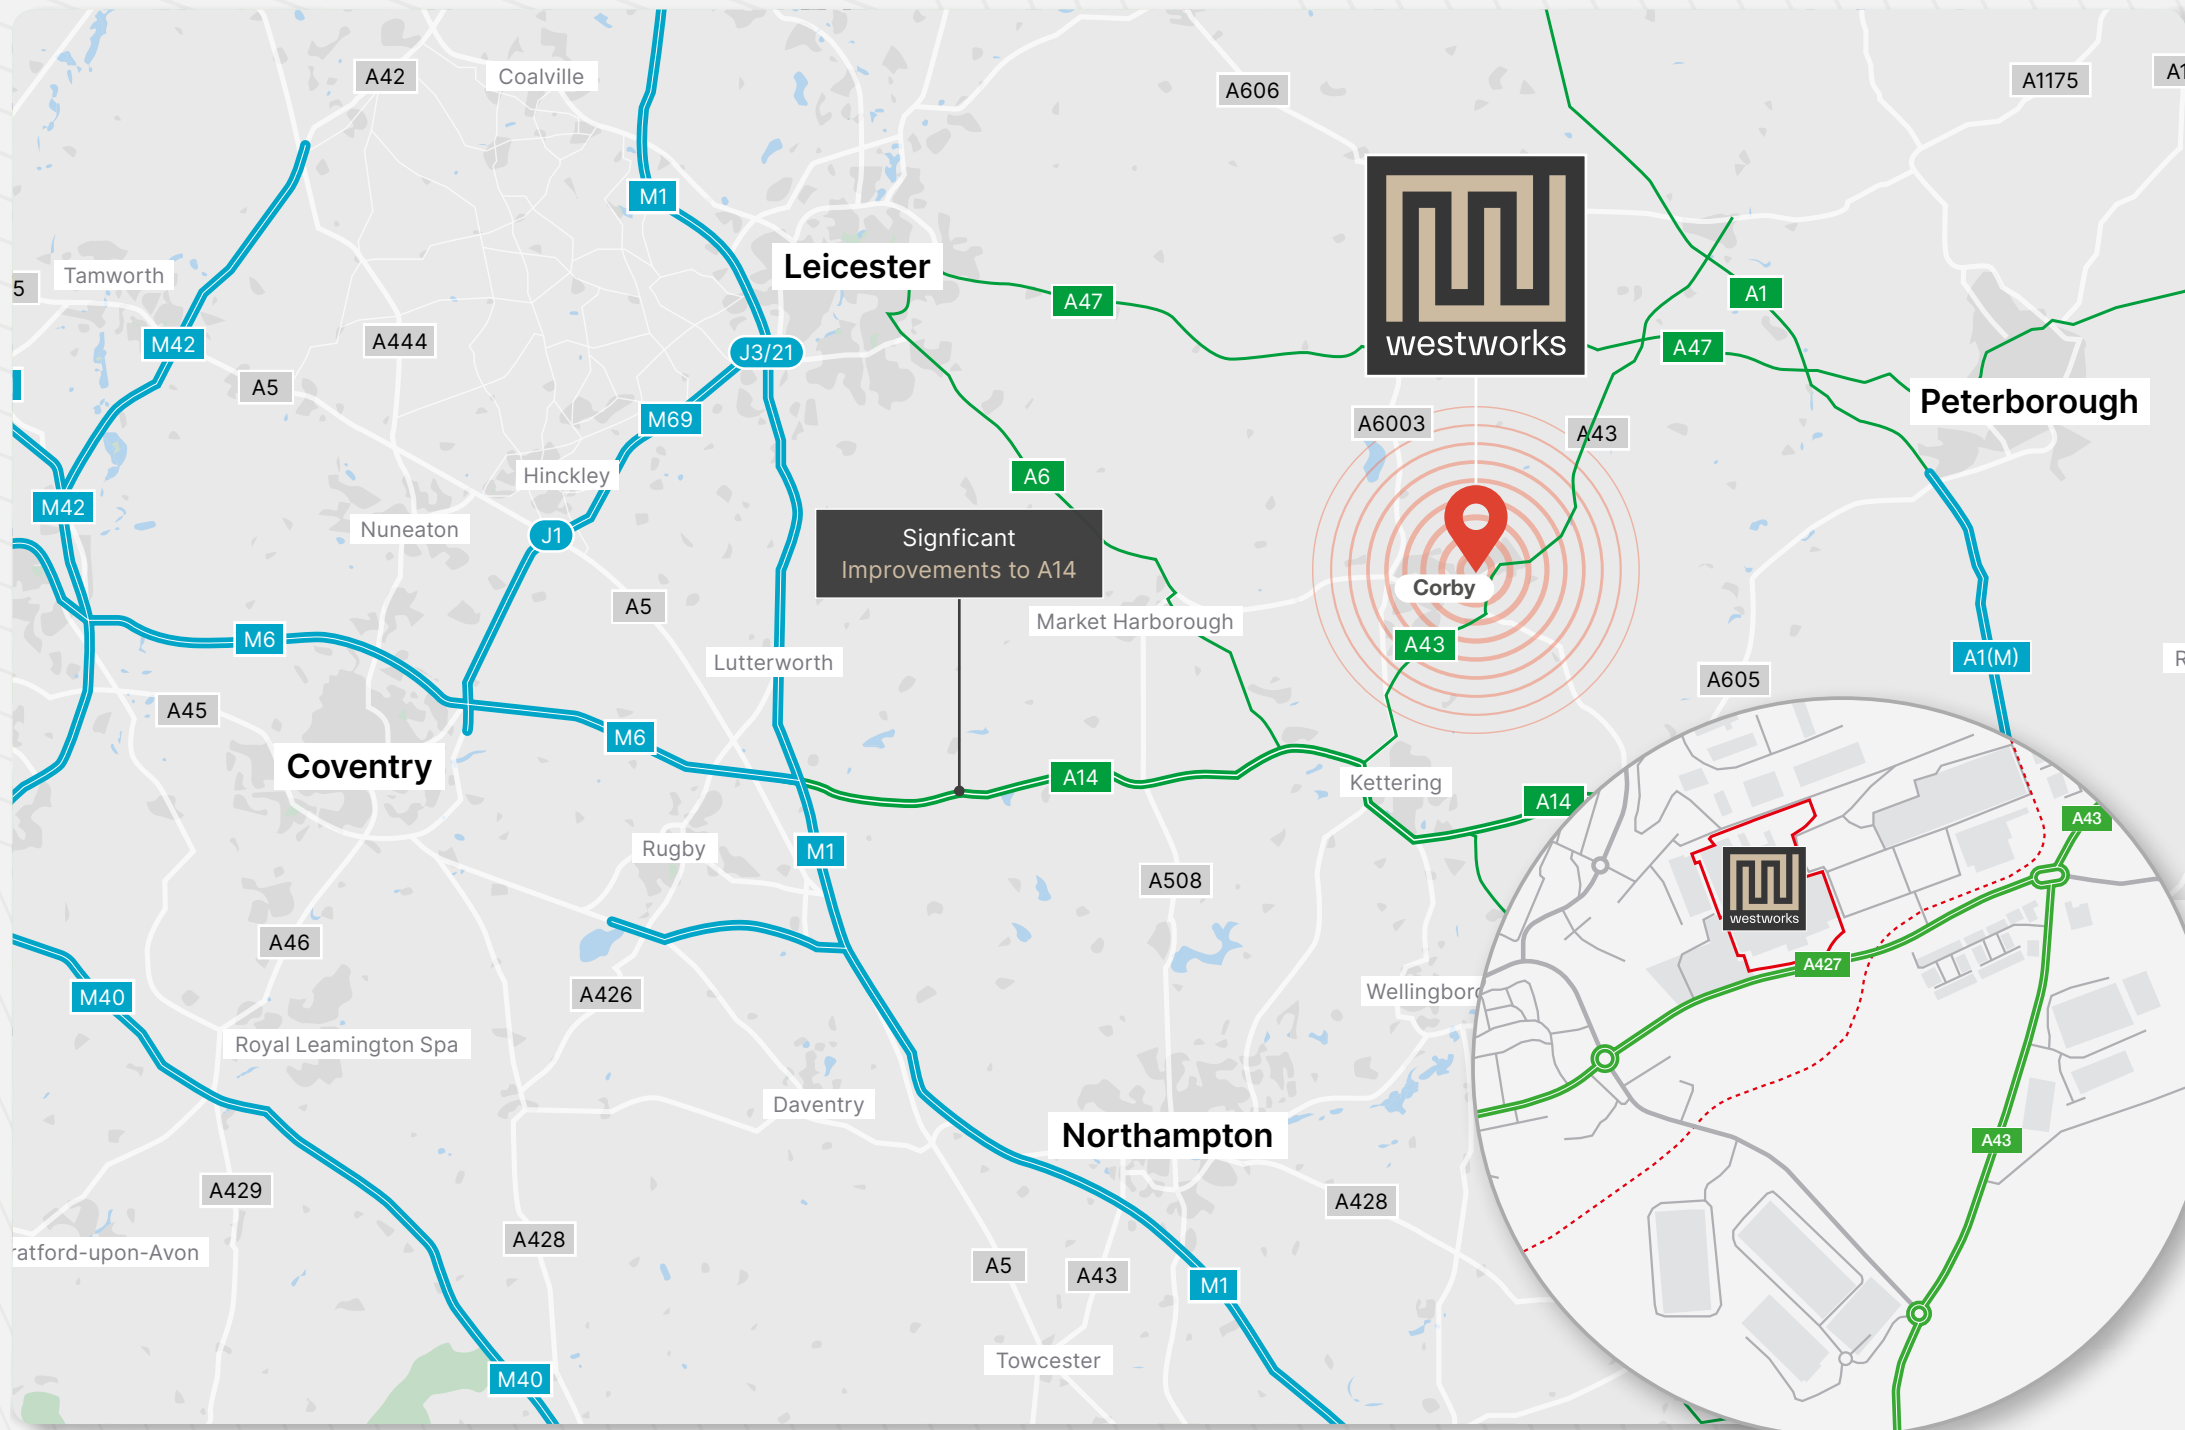

Corby's average hourly wage is £0.25 less than competing towns such as Northampton and Coventry

22% of the workforce are employed in logistics & manufacturing sectors

An average weekly wage 8% lower than the UK National Average

Westworks is situated immediately adjacent to the A427 and A43 link road. The A43, now a fully developed dual carriageway, connects to the A14, situated just 8 miles or 14-minute drive south.

The A14 has been significantly upgraded with a £1.5bn improvement scheme, which has brought economic growth to the region and eased traffic flow to reduce journey times between Westworks and national markets.

Cubic Saving of High Bay

Using Unit 3, the diagram highlights key savings of high bay versus paying for just the GIA. The three examples have the same floor area, with the only variable being eaves height, ranging from 15m to 25m.

Increasing the eaves height boosts racking potential, functional cubic area, and sustainability by reducing the overall footprint. To match cubic volume, a 15m eaves unit would need an additional 328,699 sq ft compared to a unit with a 25m clear internal height.

The proposed development holds excellent sustainability credentials:
